

Table 5: Variables considered for prediction modeling (application)

Variable	Distinct Values	Variables of TxReg from which information is extracted
Donor		
Age (years)	-	SPostmBasisAlterDSO, SPostmBasisAlterIQTIG, SPostmBasisGeburtsdatumET
Creatinine ($\mu\text{mol/L}$)	-	SPostmLaborKCKreatininWertET
Diabetes	true, false	SPostmAnamnVorerkrankungenDiabetesMellitusDSO, SPostmAnamnVorerkrankungenDiabetesMellitusET, SPostmAnamnDiabetesMellitusBeginnJahrET
Height (cm)	-	SPostmBasisGroesseWertDSO, SPostmBasisGroesseWertET, SPostmBasisGroesseWertIQTIG
Hepatitis C Antibodies	true, false	SPostmLaborVIRHCVAKRDSO, SPostmLaborVIRHCVAKDSO, SPostmLaborVIRHCVAbET
Hypertension	false, true	SPostmAnamnVorerkrankungenHypertonieDSO, SPostmAnamnVorerkrankungenHypertonieET
Sex	female, male	SPostmBasisGeschlechtDSO, SPostmBasisGeschlechtET
Smoker	true, false	SPostmAnamnRaucherET, SPostmAnamnRaucherPYET, SPostmAnamnRaucherDSO
Weight (kg)	-	SPostmBasisGewichtWertDSO, SPostmBasisGewichtWertET, SPostmBasisGewichtWertIQTIG
Recipient		
Age (years)	-	EBasisGeburtsdatumET
Pretransplant Bloodtransfusion	true, false	EBasisBluttransfusionNachRegistrierungET, EBasisBluttransfusionVorRegistrierungET
Years on Dialysis	-	WNDialyseBeginnDateET, WNDialyseBeginnDateIQTIG
Height (cm)	-	EBasisGroesseWertET, EBasisGroesseWertIQTIG
Hepatitis C Antibodies	true, false	EVirHCVAbET
Panel Reactive Antibodies (PRA)	true, false	EImmPRAWertET
Sex	female, male	EBasisGeschlechtET, EBasisGeschlechtIQTIG
Weight (kg)	-	EBasisGewichtWertET, EBasisGewichtWertIQTIG
Transplantation		
Cold Ischemia Time (min)	-	TIschaemiezeitKaltWertET, ONQualityFormEvaluierungIschaemiezeitKaltWertDSO
Enbloc Transplantation	true, false	ONEnBlocEntnahmeDSO
Destination	local, abroad, home country, regional	TBestimmungsortET

Variables considered in Rao [17] being unavailable or not directly available in the TxReg were: For the recipient: race, transplant center, angina pectoris, peripheral vascular disease, drug-treated chronic obstructive pulmonary disease, diabetes status. Donor: race, donation after cardiac death, pulsatile perfusion, year of transplant.
